GATACRE'S MEN GIVEN

A Thrashing by Boers Under General Olivier Near Bethulle.

NO MORE PEACE NEGOTIATIONS.

Many Burghers Are Reported to Be Surrendering Under the Terms of the Last Proclamation of General Roberts.

London, March 22.—It has been learned that no new peace overtures have been made to Lord Salisbury, nor are any expected at present by Great Britain. The telegraphic correspondence has been confined to the treatment of British prisoners, Lord Salisbury holding the presidents of the South African republics responsible. The question of the safety of Johannesburg and the gold mines there has not been raised.

London, March 22.—Lord Roberts telegraphs from Bloemfontein, under date of March 2, as follows:

"So many burghers have expressed a desire to surrender under the terms of the last proclamation that I have sent small columns in various directions to register their names and take over their arms.

"A cavalry brigade has gone to the eastward to Thabanchu, and a detachment from Springfontein has occupied Smithfield, where some Transvaalers and a wagon with arms and ammunition were captured. The Scots guards are at Edinburg and Reddersburg. General Clements' brigade is marching hither by way of Philippopolis and Fauresmith."

LONDON OFFICIALS

Do Not Believe the British Under Gatacre Suffered Defeat.

London, March 22.—The report that the Boers, under the command of General Olivier, had defeated the British troops under General Gatacre in the vicinity of Bethulle is not believed here. A despatch from Springfontein dated Tuesday, March 20, says: "General Gatacre was all well," and adds that he and General Brahan had not lost a dozen men in a fortnight.

The last advices also placed General Gatacre about 30 miles north of Bethulle, where the Boer report says the defeat was inflicted. This, combined with the fact that no mention of the affair was made by Lord Roberts, in his despatch of March 21, confirms the belief that Kroonstadt advices are erroneous.

The reports of skirmishing near Lobatsi, while apparently not inflicting any serious loss on Colonel Plumer's columns, cause grave anxiety in regard to his ability to reach Mafeking. Further news from that quarter is anxiously awaited, for in the six days that have elapsed since his last messages were sent off a serious engagement may have occurred, though not of Colonel Plumer's seeking. The Boers seem determined not to give up their prey at Mafeking without a fierce struggle.

In reply to the mayor of Cape Town's request to make "Mafeking relief day" a public holiday, Premier Schreiner wrote: "May the holiday come soon and may a spirit of general good will and kindly consideration prevail later."

While the Boers and the British in the Orange Free State are taking advantage of the period of inactivity to enjoy a rest, those on the borders of Natal are beginning to show activity. A special despatch from Durban says the town of Pomeroy, 30 miles east of Ladysmith, has been burned by the Boers. A British detachment arriving at Pomeroy as the Boers evacuated the place shelled the burghers, but they succeeded in taking up a strong position on the hills with a force estimated to number 5,000 men.

Encountered the Boers.

Lobatsi, March 22.—Boers under Commandant Snyman are advancing in force from Mafeking towards Lobatsi. Colonel Bodle made a reconnaissance and found Pitsani and Pothlugo occupied by the Boers. He returned to Goedehuis and made a demonstration on March 14. He found the Boers in strength at a sharp curve on the railway. They had mounted a gun on the line and were lying in wait for the construction train. A brisk firing occurred a few miles south of Lobatsi. The Boers Maxim was freely used. Colonel Bodle came in touch with the Boers just in time to prevent the camp being surprised. The Boers attacked the advance party and captured a few boxes of ammunition and nearly secured a Maxim. Lieutenant Tyler was killed and Lieutenant Chapman captured.

Victory of Boers.

Kroonstadt, Orange Free State, Tuesday, March 20, via Pretoria, March

22.—The Boers commanded by General Oliver have engaged the British troops under General Gatacre in the vicinity of Bethulle, repulsing the British with heavy loss and capturing many of them. Burghers are arriving here in great numbers. General DeWet arrived. Desultory fighting with Colonel Plumer's column has occurred near Gaberones.

Visited Woolwich Hospital.

London, March 22.—The queen, accompanied by Princess Christian and attended by a large suite, visited Herbert hospital at Woolwich to see the sick and wounded soldiers who are being cared for there. Immense crowds awaited the arrival of her majesty at the station at Woolwich and lined the route to the hospital.

FRICK-CARNEGIE SUIT

Will Be Settled and Cases in Court Will Be Dropped.

New York, March 22.—Authoritative confirmation was obtained of the report of a settlement of the contest between Andrew Carnegie and H. C. Frick. They have agreed to drop all suits and have signed articles for a great steel and iron combination, the details of which are to be arranged soon at Pittsburg, whither lawyers in the case are going. The capital of the concern will be about \$200,000,000.

Conference at Pittsburg.

Pittsburg, Pa., March 22.—The persistent reports that a compromise is being considered by the warring factions in the Carnegie Steel company, limited, received a new impetus with the arrival of Henry Phipps, Jr., fresh from his conference with Andrew Carnegie and other stockholders of the company. Mr. Phipps had not been in the Carnegie building long until he called at the office of H. C. Frick, whose side of the controversy he has been advocating. They had a long talk together, in which F. T. F. Lovejoy, the former secretary of the company participated. What took place at this conference, of course, could not be learned, but it is presumed that they acquainted Mr. Frick fully with what had gone on at Atlantic City.

To Kill Highwaymen.

Kansas City, Mo., March 22.—R. J. McFarland, chief of the Kansas City, Kansas, police department, has hung up a bounty for the bodies of all highway robbers killed in the city while in the act of committing robbery or directly thereafter. The price that the chief promises to give for the body of a highwayman—the money to be paid out of his salary—is \$25. The reward is open to the members of the force as well as any citizen. There have recently been many highway robberies on the Kansas side of the river.

One Case of Plague.

San Francisco, March 22.—The steamer Hongkong Maru arrived from Hongkong and Yokohama via Honolulu. A correspondent writing from Honolulu under date of March 15, says: But one case of plague has developed during the last 11 days. This encouraging situation has caused the board of health to modify a number of their rules, and now all classes of American and European goods are allowed to be shipped to the outside islands. Passengers have been allowed to depart for the first time in many weeks.

Exodus of Finns.

Philadelphia, March 22.—The Red Star line steamship Switzerland, which arrived here from Antwerp, brought nearly 200 Finns who are said to be the first of many thousands who are fleeing from the cruelty of the government of the czar of Russia. The party will locate in Minnesota, Iowa and Montana. They claim that the czar, instead of appointing Finns to govern the country, had appointed Russians, who have dealt harshly with all, especially the very poor.

Receiver For Appleton Concern.

New York, March 22.—Justice Bligh, of the Supreme Court, appointed J. Hampden Dougherty receiver for D. Appleton & Co., publishers, on the application of Daniel Pritchard, a stockholder. The bond of the receiver was fixed at \$150,000. The liabilities are \$1,110,000. The assets consist of stock and outstanding accounts.

Left For Macon.

Savannah, Ga., March 22.—Admiral and Mrs. Dewey left on a special train for Macon. Hundreds of people gathered at the depot to bid the guests farewell. The trip includes a brief visit to Jacksonville and Palm Beach. Summoned as witnesses.

Allwal North, Cape Colony, March 22.—Commandant Olivier left Smithfield two hours before the British scouts arrived. He only succeeded in inducing about 150 men to accompany him, mostly insurgent colonists. The Free Staters refused to go with him, and are returning to their homes.

MASCOT OF REGIMENT

Will Be Admitted to the Soldiers' Orphans' Home at Xenia.

TIME FOR WORKINGMEN TO VOTE

Will Be Allowed But Not at the Expense of Their Employers According to a Bill Passed by the House.

Columbus, O., March 22.—By unanimous vote the house adopted Senator Harding's resolution to admit to the Soldiers' and Sailors' Orphans' Home at Xenia Cornelio Varga, the Porto Rican boy who was the mascot of the Fourth regiment while in Porto Rico, and who was brought to this country by the regiment.

The house adopted by a rising vote a resolution of tribute in memory of Hon. John A. Bingham, of Cadiz.

Mr. Roberts, of Cuyahoga, made an unsuccessful effort to have the Sharp bill to repeal the Roberts law for licensing stationary engineers, passed this session, taken from the committee on manufactures and commerce and referred to the committee on labor. Mr. Roberts claimed that the committee on manufactures and commerce had already signed a favorable report without giving the opponents of the bill an opportunity to be heard. His motion to relieve the committee of the bill and refer it to the committee on labor was defeated by a vote of 35 to 49.

The house passed Mr. Snyder's bill to allow workingmen two hours off duty at each general election for the purpose of voting, after being amended by Mr. Rankin, of Clark, by striking out the provision that no deduction of wages should be made by the employer for the time taken. The amendment virtually destroys the main purpose of the bill, except that it prevents employers keeping at work until quitting time employees whose voting place may be a great distance from the shop or factory where employed, and thereby depriving them of voting.

The house passed the bill by Mr. Brown, of Paulding, creating the office of township ditch supervisor at a compensation of \$1.50 per day for the time employed.

Mr. McKinnon introduced a bill to prohibit until June 1, 1903 (an extension of three years) the transfer of insane or epileptics from county infirmaries to state hospitals on account of the present overcrowded condition of the state hospitals.

Mr. Crafts, of Portage county, introduced a bill to require low water alarm gauges placed on steam boilers and fixing the penalty for failure to do so at \$25.

Among the bills passed by the house were: H. B., to authorize the state board of agriculture to issue \$120,000 bonds for the improvement of the state fair grounds; H. B., authorizing the trustees of the Ohio State university to refund \$550,000 debt certificates, to mature; H. B., for the relief of John H. Karshner, of Co. M, Fourth O. N. G., who was injured Jan. 5, 1899, by the collapse of bunks at Columbus auditorium, where temporary barracks erected.

In the Senate.

Senator Lawrence introduced a bill which provides for the reissue of lost stock certificates, the owner to furnish indemnity against the improper use of the original.

Senator Brorein had his primary election bill made a special order for 3 p. m. Tuesday.

Mr. Myers' bill to sell a part of the Walbonding canal in Coshocton county was ordered to passage, but on the motion of Senator Brorein, was committed to the public works committee.

On motion of Senator Howard, Representative Heywood's bill appropriating \$100,000 for a law school building and \$125,000 for a physics building at the Ohio State university, was read a second time and referred to the finance committee. The advancement was made to get an early report from the committee. It increases the annual levy for the university for this purpose to 15-100 mills for two years.

The Brown resolution for consideration of the code bill provides for such consideration on Tuesday and Thursday evenings, instead of mornings for reading it.

The senate passed bills as follows: S. B., providing that mutual insurance companies in Ohio need not be restricted by the two per cent. reserve fund on business in other states; S. B., extending the city depository act to villages; S. B., increasing the state's peremptory challenges in murder cases to 8; S. B., requiring copies of notices of attachment to be mailed to non-resident owners when their address is known; S. B., requiring land

owners, whether their lands are enclosed or not, to build their share of division fences.

There will be only a formal session of the senate Friday. One or two senators will remain here to formally adjourn to Monday.

IDAHOO'S GOVERNOR

Testifies For Defense in the Couer d'Alene Investigation.

Washington, March 22.—The usual interest attached to the Couer d'Alene investigation, as the prosecution, after presenting testimony almost uninterruptedly for five weeks, closed its case and gave way to the defense.

Governor Steunenberg, of Idaho, was the first witness called to refute the charges which have been made. He is a type of the sturdy far west, of massive build, and his indifference to conventionalities is shown by a refusal to wear a neck tie.

As he took the stand he spread before him several hundred telegraphic despatches. The examination was conducted by J. C. Cheney, of the counsel for the defense.

Governor Steunenberg said he was elected governor of Idaho in 1896, on the Peoples' Democratic ticket, having accepted the nomination of the Democratic convention. He read a number of telegrams dated several days prior to the blowing up of the Bunker Hill mill on April 29, and leading up to the event.

On April 26, Frederick Burbridge, of the Bunker Hill mine, telegraphed that an armed mob had stopped the Bunker Hill men from working and calling for protection to the property interests. He also read many telegrams to and from the sheriff and others showing the steps taken to maintain order. The governor suggested arbitration of the differences, but in answer, Mr. Burbridge stated there was nothing to arbitrate, and again called for protection.

On April 29, the day of the blowing up of the mill, Governor Steunenberg said he received, at 10:37 a. m., a despatch from Burbridge stating that all the miners of Canyon creek had laid off and were coming to Wardner to menace the Bunker Hill men. This was accompanied by another request for protection. At the same time despatches were received from A. L. Mohler, of the O. R. and N. railroad, first stating that an armed force had taken possession of the railway tracks at Wardner, and one at 4 p. m. stating that the rioters had set fire to the Bunker Hill mill, that they had placed dynamite under the mill, and that it would be blown up. Sheriff Young also telegraphed him from Wardner that the mill was blown up and giving the gravity of the situation. At 6 p. m. the governor sent a despatch to the president calling for federal aid, as the Idaho troops were absent in the Philippines.

Permits Were Granted.

Washington, March 22.—Secretary Root made a brief statement to the press at the war department in regard to the action of the department in granting licenses to prospectors to dredge the water front of Cape Nome, Alaska, in their search for gold. He intimated that one or two such licenses has been issued, but to whom he did not remember. The secretary explained that his authority in the matter was based upon the statutes giving the war department jurisdiction over the navigable waters.

Porto Rican Matters Discussed.

Washington, March 22.—Mr. Bacon criticized the Republican policy with reference to the trade between the United States and the islands acquired from Spain. He claimed that the bill as agreed upon in conference, really enforced the full rate of the Dingley law. He wanted free trade with Porto Rico, and wanted it quickly. He contended that the money to be returned would not go to the people from whom it had been collected.

Will Settle by Arbitration.

Washington, March 22.—Secretary Hay and Senator Correa, the Nicaraguan minister, signed a treaty providing for the settlement by arbitration of the claims of two American concerns against the government of Nicaragua.

Negative Reply Sent.

The Hague, March 22.—After mature deliberation the government has despatched a reply to Presidents Steyn and Kruger regretting that it was unable to comply with their request for intervention in the South African war after the formal declaration of the British government that the intervention would not be accepted. It was added, however, that the Netherlands would always be ready to support steps tending to the restoration of peace.

A Royal Wedding.

Vienna, March 22.—Crown Princess Stephanie and Count Lonyay were married in the chapel of Miramar castle, the court chaplain officiating.

THROUGHOUT COUNTRY

Strike of Machinists, Involving Thousands, May Be Ordered.

CLEVELAND MEMBERS QUIT WORK.

After Discussing the Matter All Night, the Men Decide to Do No Work Until Their Demands Are Granted to Them.

Cleveland, O., March 22.—After voting for over four hours in secret session at Germania hall, 1,500 machinists of Cleveland, both union and non-union, unanimously declared a strike, to go into effect at once. The strike will affect about 55 machine shops and manufactories. The result of the decisive ballot was received with deafening cheers. President O'Connell said that it now looked as though Cleveland would be the stamping ground of one of the biggest strikes inaugurated in the United States.

In accordance with the decision reached at the meeting, which lasted practically throughout the night, the machinists employed in more than 50 establishments laid down their tools at 8 a. m. It is stated that 1,500 men are out, including union and non-union men. Should the strike continue for a few days several thousand additional men in other trades dependent upon the machinists will become idle. The strikers declare they will remain out until their demands for a nine hour day with 10 hours pay is granted by the employers.

At four establishments the machinists were notified early in the day that their demands were granted. In these shops the men continued at work. President O'Connell, of the International Machinists' union, has issued the following statement: "If the nine hour day is not granted by the employers of machinists throughout the country by April 1, there will be a general strike, involving 200,000 machinists, and not a wheel will be turned until that concession is made."

"The strikes now in operation in Chicago, Cleveland, Columbus and other cities have so far encouraged the machinists of the United States to make a general demand for a nine hour day, and unless the present strikes are speedily adjusted it will be very hard to prevent a general movement."

"Telegrams are pouring in from all sections of the country asking permission to make the demand. I am, however, trying to avoid the necessity of a general strike, and if the officers of the National Metal Trades association can be induced to meet us in a spirit of fairness, without imposing unreasonable conditions to their propositions, a general strike can be averted."

"If the employers, however, insist that all present strikes must be declared off for an indefinite period before they will consider the question of arbitration an amicable adjustment can not be looked for."

President O'Connell left here for Erie, Pa., where he expects to confer with President Seldon, of the National Metal Trades association, with a view to bringing about a settlement of pending machinists' strikes at various points.

ARE INDIOTED

Olga Nethersole and Others Held For Presenting Indecent Plays.

New York, March 22.—The grand jury reported an indictment against Olga Nethersole, Theodore Moss, Marcus Mayer and Hamilton Revelle, charging them with offending public decency. The offence was in the production of the play "Sapho" at Walack's theatre, of which Mr. Moss is the manager. The indictment characterizes those named as "persons of wicked and depraved minds and dispositions," who, "not regarding the common duties of morality and decency, but contriving and wickedly intending so far as in them lay to debauch and corrupt the morals as well of youth as of divers other persons, and to raise and create in their minds inordinate and lustful desires."

The indictment further alleges "that the motions, postures, etc." of the performance were such "that a more particular description thereof is not fit to be set down in these allegations or spread upon the records of this honorable court."

Chicago, March 22.—Judge Dunne issued a writ of habeas corpus just in time to save Former Banker E. S. Dreyer from going to Joliet to begin an indeterminate sentence in the penitentiary for embezzlement. Dreyer and his guards were aboard the train when the writ was served and just as the train pulled out the former banker was removed and taken back to jail.

The "Daily Commonwealth, the only paper published in Covington, and which enjoyed great prosperity years ago under the management of Col. Law, Casey, has again suspended publication. Formerly it was of the Democratic persuasion, but in later years it enjoyed the distinction of being on more sides of the same question than almost any other paper ever published. It has been anti-Democratic for some time, and fought Goebel bitterly during the late campaign.

The Ledger has more faith in the fairness of Democratic Police Judge Riley of Lexington than it has in any Democratic member of the Court of Appeals.—Public Ledger.

The editor of the Ledger would no doubt be greatly surprised if he knew just how much those people who know him care for the Ledger's opinion on any subject. The Democratic members of the Court of Appeals will continue to do business at the old stand, unless some Republican outlaw should be hired to assassinate them.

THE CONGRESSIONAL RACE.

This District Is Close and Democrats Ought to Win—Kehoe a Probable Candidate.

[Courier-Journal Mch. 22nd.]

Mr. J. N. Kehoe, the young orator and clever politician of Maysville, is thinking of running for Congress in the Ninth district, and, if he does, he will probably have no opposition, or at least none that would be likely to head him off. He was defeated for the nomination two years ago by Mordecai Williams who was defeated by Congressman Pugh in the November election.

The Ninth district is close, the majority being usually in the hundreds, and occasionally less than 100, as in the last election.

It is believed that Mr. Kehoe could more certainly redeem the district to Democracy than any man who for years has thought seriously of making the race.

Prevented a Tragedy.

Timely information given Mrs. George Long, of New Straitsville, Ohio, prevented a dreadful tragedy and saved two lives. A frightful cough had long kept her awake every night. She had tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Medical Discovery. One bottle wholly cured her, and she writes this marvelous medicine also cured Mrs. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c. and \$1. Every bottle guaranteed. Trial bottles free at J. Jas. Wood & Son's drug store.

BIG CROWD OUT

At Last Night's Meeting Looking to Improvement of Sixth Ward.

Move Inaugurated to Secure a System of Drainage For That Part of the City—The Plan.

The move to establish a thorough system of drainage for the Sixth ward was formally inaugurated last evening under favorable auspices. The meeting was held at the new Limestone Hall, and the large attendance of representative citizens and tax-payers was proof of the lively interest manifested in the movement.

Mr. W. D. Cochran was chosen Chairman and Mr. John Duley, Secretary.

Councilman Charles Walther stated the object of the meeting was to consider the question of draining the Sixth ward, the cost to be paid by levying an additional tax of 15 cents on each \$100 for five years. He said in the event that such action was taken as would lead to the adoption of this method by the City Council a competent civil engineer would be employed and the work done in such a manner as to insure that all the surface water would be carried off.

Resolutions were read as follows, expressing the sentiment of the meeting:

WHEREAS, The Sixth ward is infested with many cesspools and water puddles, the fumes of which rise and fill the atmosphere with poisonous matter; and

WHEREAS, We deem it necessary to rid ourselves of this nuisance in order to enhance the health and welfare of our community;

Be it Resolved, by the taxpayers and citizens of the Sixth ward of the city of Maysville, Ky., That our representatives in Council be and are hereby instructed to cause to be passed a suitable ordinance which will give us the required relief by establishing a system of sewerage, the cost of which is to be defrayed by an extra 15 cents tax levy on each \$100 on all taxable real and personal property situated in the Sixth ward of the city of Maysville, Ky.

City Attorney Wood was present and said he thought the Sixth ward could be drained at a cost of \$1,000. Addresses were made by Mr. R. V. Dryden, Mr. W. D. Cochran and others.

On motion a committee of five, including the Chairman, was appointed to obtain information as to the probable cost of survey, work &c. The committee is as follows: Messrs. C. A. Walther, J. E. Parker, R. V. Dryden, W. E. Stallcup, T. M. Wood and W. D. Cochran.

All admit the great need of such an improvement, and the work should be pushed to an early completion.

BROOKSVILLE AFTER IT.

Deal on to Buy the Fleming Narrow Gauge Railroad and Extend it to Coal Fields.

[Flemingsburg Times-Democrat.]

Tuesday afternoon, E. J. Hunter, of Chicago, and Mr. Luckett, of Yellow Springs, Ohio, accompanied by Younger Alexander, the Brooksville banker and President of the Brooksville and Wellsburg R. R., came in to look over the line of the C. F. and A. R. R. with a view to buying it to make it a link in a system to connect West Liberty, Ky., and the fine coal fields in that vicinity with Cincinnati and the outside world. The first named represent a syndicate having large bodies of fine cannel coal lands in that field, and we think the prospect is fine for a standard gauge road and direct connection with the Kentucky coal fields on the one hand and with the Cincinnati and Eastern markets on the other. Mr. Hunter spent some time here, leaving Wednesday afternoon for Salt Lick, Bath County, to look over the narrow gauge timber road which runs up the river eighteen miles from near Salt Lick. They have an option on this road and will make it part of the system. They are to go to see W. W. Franklin, who with his associates, controls our road, and we have no doubt he will give them an option on fair terms, as he has too much other business to give it his personal attention. So we think the prospect is good for a new deal which will be of great importance to this town and county.

The Junior Endeavor Society of the Central Presbyterian Church will entertain to-morrow afternoon, March 24th, at 2:30 o'clock, with an auction social. All children of the church and Sabbath school are cordially invited.

PLAN FAVORED.

Bill to Divide Kentucky Into Two Federal Judicial Districts May Be Passed.

WASHINGTON, March 20.—Senator Lindsay and Representatives Pugh and Boring appeared before the House Judiciary Committee this morning to urge a favorable report on the bill dividing Kentucky into two judicial districts.

This bill provides that the counties of Carroll, Owen, Franklin, Woodford, Jessamine, Garrard, Lincoln, Pulaski and Wayne, together with all that part of Kentucky lying east of said counties, shall compose the Eastern district of Kentucky, and all the State west of the counties shall compose the Western district of Kentucky.

Two terms of the Circuit and District courts shall be held each year in the cities of Louisville, Paducah and Owensboro, and these courts shall have jurisdiction over the Western district of Kentucky; two terms of the Circuit and District courts shall be held each year in the cities of Covington, Frankfort, London and Catlettsburg, and these courts shall have jurisdiction over the Eastern district of Kentucky.

It also assigns the District Attorney for the present district of Kentucky to the Western district of Kentucky, and provides for the appointment of a District Attorney for the Eastern district of Kentucky, and makes the present Marshal Marshal for the Western Kentucky district, and provides for a new Marshal for the Eastern district. The Judges of the Eastern and Western districts shall appoint clerks for their respective courts.

It was argued that the division of the State into two districts was advisable for economical reasons and necessary, for the dragging of witnesses from the mountains by way of Catlettsburg offered unfortunate opportunities for mileage frauds.

The Judiciary Committee was very much impressed with the argument made, and a favorable report on the bill is expected.

COUNTY Court at Flemingsburg next Monday.

MR. LAURENCE HOWE of Fleming had a sale of live stock last week, netting him \$3,700.

A LARGE otter was killed on a stream three miles east of Flemingsburg the past week.

WYANDOTTE Tribe No. 3, I. O. R. M., conferred the second degree on ten candidates last night.

THOS. H. GRAY's purchase of tobacco this year at Flemingsburg foots up a total of a little over 1,100,000 pounds.

Some Spring Silk Suggestions!

Firstly, we would suggest that you inspect our immense and choice stock of new Spring Silks before you make your purchases. We use no words to induce you to buy, the Silks must speak for themselves. Their prettiness and exclusiveness of designs, their goodness in quality and lowness in price will be eloquent demonstrations of their worthiness even to the poorest silk judges.

Secondly, we do not know whether to suggest plain taffetas or fancy silk; they are all so pretty and stylish. We can merely mention prices; ask you to compare and make your choice. Plain Taffetas in all colors at 49c and 89c. In black also at \$1 and \$1.35. Our stock of fancy Silks was never so large or select. They come in the new insertion and corded effects. Prices 79c., 89c., \$1, \$1.39, \$1.50, most of these are in waist patterns only. New Foulards with the new sheen finish worth \$1.25, our price 89c. yard. The very latest fad is the silk handkerchief waist. We have 'em at \$3.50 the pattern. Your inspection cordially invited.

Numerous Needful Novelties!

The many little novelties that go to make the stylish costume complete are well represented here. The new Pulley Belts 25c. to 98c. each. Pulley Belt Buckles 25c. Pulley Belt Rings from 2c. to 25c. each. Mull turn over collars at 15c., 19c. and 25c. The new lace ties from 50c. to \$1.25. Mercerised all over laces in black, ecru and white from 98c. to \$3.25 a yard. Lace applique bands from 15c. to \$2.50 a yard. Jetted net from \$1.25 to \$2.25 a yard. Besides these we have the latest dainty Cream laces tucked Mouse-line and Swiss and all the new trimmings that Dame Fashion decrees as up to date.

Some Misunderstanding as to the Provisions of the New Law on the Subject.

The following item or one similar to it has been going the round of Kentucky papers lately:

"Under the new law no person not a graduate pharmacist and holding a certificate from the State Board of Pharmacy, can sell medicines of any kind. Dr. Robt. Cassidy, of Lexington, has been appointed by the State Board of Health as a detective to discover and arrest offenders against the law."

Section 14 of the new law says: "Nothing in this act shall be construed so as to apply to, or in any way interfere with, the sale of the usual non-poisonous domestic remedies and medicines, and patent or proprietary medicines by country stores in small places or rural districts. Nothing in this act shall apply to, or in any manner interfere with, the business of the licensed practicing physician, or prevent him from supplying to his patients such articles as may seem to him proper, or with his compounding his own prescriptions."

Another section of the law states that the act does not apply to the sale to agriculturalists and horticulturalists of such articles as are commonly used by them as insecticides.

Country store-keepers can sell such articles as Paris green and rat destroyers, but not such articles as morphine, laudanum, oil of tansy, ergot and similar articles.

Death Claims a Farmer Resident of Maysville—Passed Away Thursday at Her Home in Louisville.

A telegram late Thursday afternoon brought the sad news of the death of Mrs. Anna Wood, wife of Mr. B. White-man Wood, at the home of the family in Louisville. She had been ill only a few days with pneumonia.

Mrs. Wood was a sister of the late Dr. H. C. Morgan, of this city, and was a resident of Maysville for many years. She leaves five children—three daughters and two sons. Her husband, who is a member of the January & Wood Company of this city, survives.

The burial will probably be at Louisville.

A NEW INDUSTRY.

Big Money Being Made Growing Belgian Hares.

Are Easy to Raise, Will Thrive Most Any-Where and Their Meat Better Than That of Chickens.

[O. P. Walcott in Scientific American.]

The growing of Belgian hares has recently become an extensive industry in Southern California, having its center in Los Angeles. Here, within the past two years, hundreds of firms have turned their attention to the timid little red brown hare, and thousands of hutches, or rabbit warrens, are housing the breeding or growing animals. Many of the concerns have extensive equipments, costing as much as thirty or forty thousand dollars, while hundreds of others are mere boxes in back yards screened with wire netting, the proprietor of the place being some man or woman of the establishment.

The economic value of the Belgian abides in its flesh for food purposes. This has no relation to the ordinary hare or rabbit. It is white, close-grained and tender, resembling very much the legs of frogs, being withal of delicate and most savory flavor. It is decidedly an epicurean dish, being superior to fowl of any kind; no roast could be more palatable than a good fat hare stuffed with oysters.

The animal commends itself to raising in small ways from the fact that it is very clean and will be healthy in the most limited and confined spaces. In

this respect it is greatly superior to poultry, requiring neither the care nor the space of chickens. These considerations have made it distinctly the back yard pet of Los Angeles, in which enclosures many thousand are now being raised. The prices of hares of good breeding points are now high, notwithstanding the number in existence. A good buck or doe will bring from \$50 to \$250, sales at the latter price being very common. The ordinary does and bucks of the age of three months, not bred from parents of prize records, bring from \$20 to \$25. The sex most commonly sold is the females; a few unsealable does get upon the meat market, where they are readily gobbled up at 25 cents per pound live weight, a price which makes the animal worth from \$2 to \$2.50. They are killed and dressed at the stalls while the purchaser waits. The animals can be grown to maturity for from 35 to 40 cents, and they could be sold at 75 cents and great profit realized; the present prices, therefore, are very remarkable, yet they have kept steadily up since the inception of the industry and give no indication of waning.

The hares at Los Angeles come directly from England and Belgium; several of the firms make a specialty of importing. It is said that a hare having the points of the Belgian, but of smaller size, runs wild in the country to the west of Antwerp; and by the importers it is said that it was from this hare crossed with English breeds, the crossing being with regard to a table animal, that the now popular Belgian was procured. Los Angeles appears to have gotten the start upon the rest of the country, as shipments are being made daily from this place to all parts of the United States, Florida being one of the largest takers. A Southern climate, however, is not necessary for successful culture of the animals. It

will thrive equally well in Michigan or Wisconsin and would do as well in Massachusetts as in Mississippi.

The high profit in growing the hare abides in their wonderful fecundity and in their eating cheap provender. The doe brings forth every sixty days, having from six to eleven and as high as fourteen in a litter. As the doe can only suckle eight, a white rabbit, usually an Angora, is kept in breeding to serve as nurse for the surplusage. The youngsters grow at a rate of about one pound per month for eight months when they are matured at eight pounds. They are bred at seven months. They eat about the same food as a sheep, their preference being for alfalfa or clover hay. When the doe comes to yield her litter she prepares for them a nest of hair which she pulls out of her own body. If not prevented by spreading boards or wire netting over the surface of the ground the doe will burrow and produce her young in a chamber about five feet under the ground. In this the animal follows the trait of the rabbit and not of the hare; another rabbit quality is that the young do not open their eyes until about ten days after birth, while hares are born with their eyes open. But with all the qualities of unconformity there is no doubt that the animal is a hare. It has the small fore limbs and the large strong kangaroo-like hind legs of the hare and it moves by leaps and bounds.

In color the Belgian is a yellowish red when mature, with white upon the belly, and with long erect ears.

They are nearly black when born, turn almost gray when a week old, but darken and redder as they approach maturity.

A Belgian Hare Association has been formed in Los Angeles which has an extensive membership and all the indications are that another enduring and extensive industry has been added to the live stock interests of the country, with incident benefit to the pelt industry, for the skins make excellent furs for hatters' uses, and for the lighter winter apparel for women, while they are beginning to enter the trade as trappings.

Los Angeles, Cal.

IMPLEMENTS OF WAR

Stored in the Buildings Adjacent to Jail at Frankfort.

Frankfort, Ky., March 22.—A large consignment of guns and ammunition was received here and stored in buildings adjacent to the jail, where Suspects Powers, Davis, Whitaker and Culton are confined. This action was ordered when it was said that armed bodies of men from the mountain counties might come here to the preliminary trials. These rumors were accompanied by hints that an attempt might also be made to rescue the prisoners. Adjutant General Castleman spent the night here and after a conference with Governor Beckham returned to Louisville.

Summoned as Witnesses.

Orbin, Ky., March 22.—Sheriff Reeves, of Knox county, summoned as witnesses in the Goebel murder case Misses Ella Smith, Jane Cateron, and Lizzie Matthews, of Barbourville, who are alleged to have heard John Powers make the remark that if some one did not kill Goebel he would. They will go to Frankfort to appear as witnesses against Powers.

Old Age.

Old age as it comes in the orderly process of Nature is a beautiful and majestic thing. The very shadow of old age which threatens it makes it the more prized. It stands for experience, knowledge, wisdom and counsel. That is old age as it should be. But old age as it so often is means nothing but a second childhood of mind and body. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it doesn't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, unenriched, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor." Its invigorating effects are felt by mind as well as body. It takes the sting from old age and makes old people strong.

See our watch bargains. They have never been equalled. With every 14k. gold watch either lady's or gent's we give an elegant gold-filled chain and the price of watch is guaranteed lower in price than any dealer will sell the watch alone. The chain costs you nothing. MURPHY, the jeweler.

The funeral of the late George Wood, who was killed by the bursting of an emery wheel Thursday, takes place this afternoon at 2 o'clock, Rev. T. B. Stratton officiating.

Story of a Slave.

To be bound hand and foot by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a god-send to weak, sickly, run down people. Every bottle guaranteed. Only 50 cents. Sold by J. Jas. Wood & Son, druggists.

DO YOU KNOW

We carry a full line of The United States Paint Company's goods prepared ready for use in twenty-one beautiful and durable shades, put up in pint, quart, half gallon and one gallon cans, five gallon buckets, half barrels and barrels. Full weight; full measure; every gallon guaranteed.

This Paint....

is not a cheap substitute for white lead, but a mixture of carbonate of lead and zinc combined with pure linseed oil on such a scientific principle as to resist the action of the elements.
